

Colaba-Bandra-SEEPZ Metro-3 Corridor

MMRC begins installation of First Escalator at MIDC Station

Mumbai, July 18, 2021 – First Escalator for the underground Colaba-Bandra-SEEPZ Metro-3 corridor has arrived at the MIDC station and Three more Escalators are under dispatch. These prototype Escalators (2 each for MIDC and Siddhivinayak metro stations) will undergo due testing and based on their approvals bulk supply will take place.

In all, 414 Escalators for Metro-3 corridors will be manufactured, supplied and provided by M/s. Yuanda Royal Consortium and M/s. SJEC Johnson Consortium.

These heavy-duty dual speed Escalators with regenerative energy saving mode will enhance commuting experience of the passengers by facilitating their smooth movement with greater ease at these underground stations, both from entry/exit points at ground level to concourse level and from concourse level to platform level.

“The installation and commissioning of the first prototype unit at MIDC station will take about 20-25 days and testing will be conducted thereafter”, said the spokesperson of MMRC.

Installation of the escalator at MIDC Metro Station has already begun. (Ends)
