

Colaba-Bandra-SEEPZ Metro-3 Corridor

No work is undertaken in the restricted area of Aarey Car Shed –
Says, Ranjit Singh Deol, MD, MMRC
Preparation is to receive new train outside the restricted area
And to carryout tests

Mumbai, March 2, 2022 – "No work is being carried out in the restricted area of Aarey Car Shed", says Mr. Ranjit Singh Deol, MD, MMRC. Mr. Deol was responding to certain news reports that appeared in various publications. He said, "These reports are misleading as we are creating the temporary facility outside the restricted area and located at the mouth of the ramp on west of the Marol-Maroshi Road. This facility is to accommodate prototype train expected by the end of March, and then start testing them. The train will be tested on various parameters including speed, oscillation, and emergency break distance during their 10000 km test runs. These tests will be conducted in the tunnels commencing from the temporary facility area.

Mr. Deol further clarified that, "The plans of testing of proto-type train by creating temporary facility at this location has requisite approvals of the Government".

The Mumbai Metro Rail Corporation urge all publications to check facts with MMRC to prevent circulation of misleading information in this regard. **(Ends)**
